Cross-cutting

Enjoy the smart choice

HARWI 500-C

Cross-cutting

HARWI 500-C

Simply, Solid, Safe.

Comparing with traditional cutting systems, the Harwi 500-C crosscutting saw ensure to have fast amortization and to generate profit from the first working day.

Compact, simple, robust and innovative devices ensure really the maximum cutting safety, using flexibility and reliability in the long life of the sawing machine.

Simple:

It's so easy to use; just select the length and press the two buttons to cut. The operator should not perform any special setting or adjustment.

Simple, easy and flexible!

Solid:

The Harwi 500-C crosscutting saw is designed and manufactured to work also in hard conditions and with heavy wood.

The structure is completely in varnished hard steel.

Solid, compact and stable!

Safe:

Two handed safety control with ergonomic position and the blade protection cover allows to work with absolute safety.

Safe, protected and secure!

Harwi 500-C

The most appreciated solution!

The Harwi 500-C has a completely painted, thick and reinforced steel structure.

The blade with a diameter of 500 mm, the motor power of 5.5 kW and the rotation speed of 2.800 rpm make it the ideal machine for those who work with wood up to a maximum of 125 mm thick and 310 mm wide (optional up to 375 mm).

Specifications

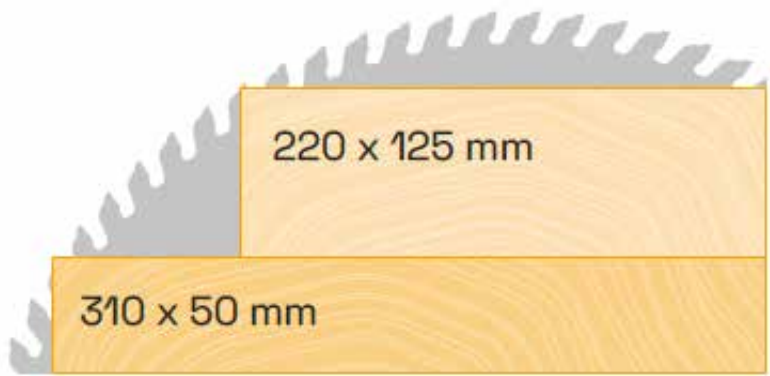

Type	Harwi 500-C
Cuttingheight / cuttinglength	220 x 125 260 x 100 285 x 80 310 x 50 mm
Diameter sawblade	Ø 500 mm Z =108
Motorpower	5.5 kW (7 pk)
Voltage	400V - 3~
Sawblade rotation	2.800 tpm
Air Pressure	Max. 8 bar
Air Consumption	5 NI / cycle
Diameter sawdust extraction	1x Ø 120 mm 1x Ø 100 mm
Working heigth	900 mm ± 20 mm
Distance from left stop to saw blade	70 mm
Distance from right stop to saw blade	520 mm
Distance between strokes	60 mm
Weight	395 kg

Two handed safety control

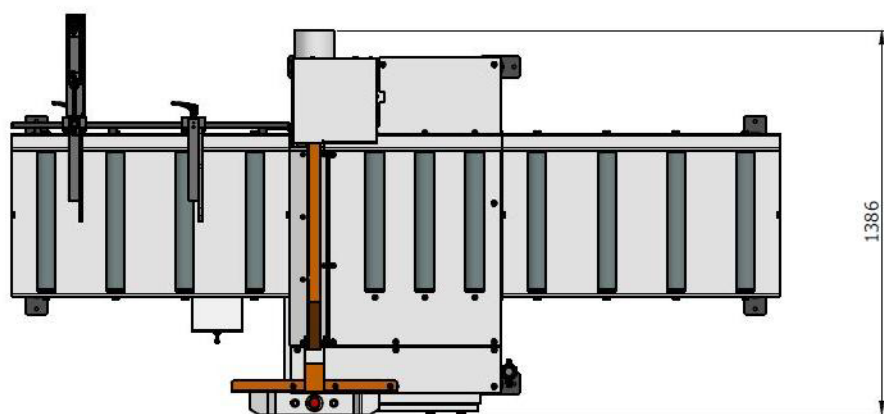

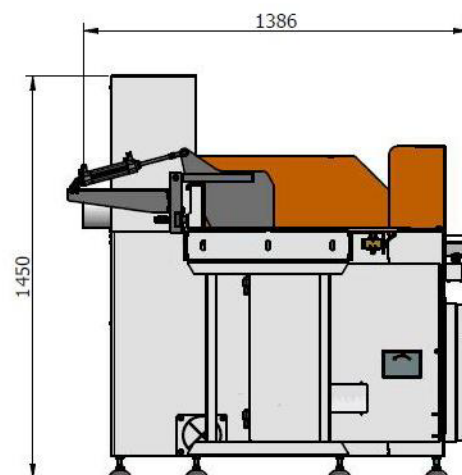

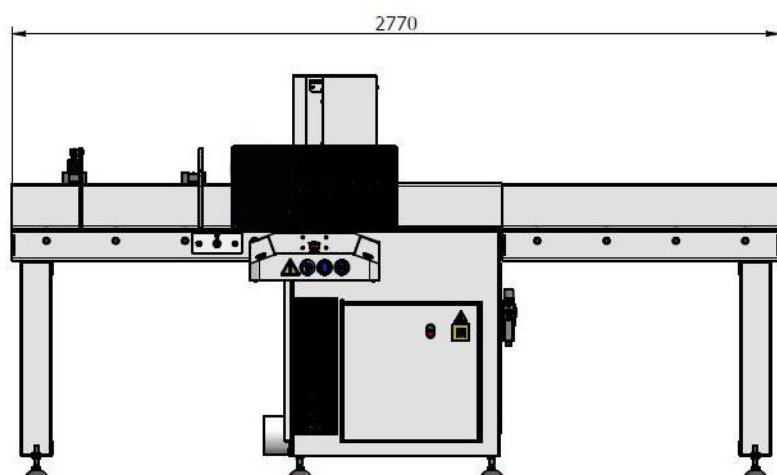

Cutting height / cutting length (mm)

Cutting height	Cutting length
220 mm	125 mm
260 mm	100 mm
285 mm	80 mm
310 mm	50 mm

Dimensions (mm)

SalvaStop 100 - Length measuring system (option)

Our Mission

Through combining experience and craftsmanship with service and development, we strive for an optimal working environment in which safety, ergonomics and health come first. The robust nature and the long service life of our machines characterize our passion for technology. Our core business is the delivery of standard sawing solutions in the wood industry.

Our company

The company was founded in Helmond in 1960 and has been operational there for 63 years. Since 2024 Harwi produces its sustainable sawing machines in Deurne. Our specialization and expertise in the wood industry in particular has been ensuring satisfied customers for years. Providing innovative sawing solutions within the Netherlands and abroad is the foundation of our organization. Within this foundation we prioritize user friendliness and quality.
